CHAITANYA PAWAR

SOFTWARE ENGINEER | FULL STACK DEVELOPER

Bengaluru, Karnataka • +91-7058088895 • chaitanya.works24@gmail.com • chaitanyapawar.space

PROFESSIONAL SUMMARY

Software Engineer at LTIMindtree owning a full-stack insurance rating application (.NET, C#, Angular, SQL) for a US client. Founder of **InteriorSaleOS (SalesCrave)**, a subscription CRM used by interior design studios (**₹10,500 MRR**), and of a web business building websites and systems for professional clients, closing **₹60K–₹80K in monthly sales**. Ships full-stack products end to end, from schema design to deployment.

TECHNICAL SKILLS

Languages & Frameworks: C#, .NET / ASP.NET, Angular, Next.js, JavaScript, SQL

Backend & Databases: PostgreSQL, Supabase, Cloudflare D1, REST APIs, Authentication, Schema Design

Cloud & DevOps: Vercel, Cloudflare Workers, Jenkins, IBM UrbanCode Deploy (UCD), Git, GitHub

Tools & Practices: Make.com (Workflow Automation), Application Testing & Debugging, AI-Assisted Development

PROFESSIONAL EXPERIENCE

LTIMindtree — Software Engineer **Aug 2025 – Present | Bengaluru, Karnataka**

US Commercial Insurance Client | .NET, C#, SQL, Angular, Jenkins, IBM UCD, Git, Jira

- Own a full-stack **boiler & machinery rating tool** end to end, an application that quotes insurance premiums for boilers and equipment in factories, hotels, and homes, delivering business-requested changes across .NET, C#, Angular, and SQL.
- Found a **hardcoded expense factor** in the premium calculation that should vary by SIC (industry sector) code; raised it with my senior manager, then built the fix so each sector uses its own factor and premiums match the business rating workbook.
- Took on **end-to-end testing** for several of the team's quoting and rating applications after the team's tester left, alongside development work.
- Produce weekly and monthly reports on client incidents and on expiring and renewing policies; support releases through Jenkins and IBM UrbanCode Deploy.

FOUNDER EXPERIENCE

InteriorSaleOS (SalesCrave) — B2B Lead-Management CRM · home.salescrave.in **Paid SaaS | ₹10,500 MRR**

Next.js, Supabase (PostgreSQL), Make.com, REST APIs, Vercel

- Built and sell a CRM for interior design studios that replaces scattered lead intake and follow-ups with structured pipeline stages and sales analytics dashboards.
- Sell on a **₹500 per employee per month** subscription; **21 paid seats** across studios generate **₹10,500 MRR**.
- Designed a multi-studio data model with per-employee accounts and authentication, plus Make.com integrations; built on Next.js and Supabase (PostgreSQL), deployed on Vercel.

Web Business — Websites & Systems for Professional Clients **₹60K–₹80K Monthly Sales**

Next.js, Configuration Schemas, Git, Vercel

- Run outreach and deliver websites and systems for interior design studios, dental clinics, and architecture firms, now expanding into real estate; closing **₹60K–₹80K** in deals each month.
- Built a reusable, configuration-driven Next.js framework that separates branding, themes, typography, routing, and portfolio mapping from layout code.
- Cut new site setup to **about 30 minutes** once client assets are ready.

PROJECTS

Metabolic — Health & Lifestyle Tracking Platform **In Development**

Next.js, Cloudflare Workers (Vinext), Cloudflare D1 (Serverless SQLite), Authentication

- Edge-deployed health and habit tracker. Implemented authentication, onboarding, daily metric logging, a target engine, and long-term biomarker history dashboards.

EDUCATION

Sinhgad College of Engineering — B.E. in Computer Engineering · CGPA **7.45/10** **2021 – 2025 | Pune**
